

# PS2001 — PS Automation Library (PS) Project Document Register

PS2001-0-01-001  
Revision: R01.14

## Document information

PROJECT NAME      PS Automation Library  
PROJECT No          PS2001  
DOC TITLE          Project Document Register  
CUSTOMER          PS (Note: if blank or "Internal" will not appear in title)  
DOCUMENT NO.      PS2001-0-01-001  
REVISION          R01.14  
REVISION DATE      30-Apr-21

## Document revision history

REVISION	DATE	DESCRIPTION
R01.14	30-Apr-21	Live document

## Document authorisation

	NAME	POSITION	SIGNATURE (if required)	DATE
AUTHOR	Michael Gledhill	Engineering Manager	Not required	30-Apr-21
.....				

The author is signing to confirm that this document has been prepared in accordance with an approved document management process, that all relevant material has been included and reviewed.

REVIEWED BY	Andrew Cann	Project Manager	Not required	30-Apr-21
.....				

The signature of the reviewer indicates that the document has been checked for technical content and that it complies with the technical standards, specifications and conventions.

APPROVED BY	Andrew Cann	Project Manager	Not required	30-Apr-21
.....				

The signature of the Approver indicates that the document has been checked for compliance with the quality management Procedures.

Revision: R01.14

## Project Document Numbering

A brief summary of the project numbering structure.

**Project document numbers have the following format:**

PSxxxx-A-FFggkk-NNN Raa.bb Document Name 21 char.eeee

Where

PSxxxx	Project Number	
A	Discipline area	<ul style="list-style-type: none"> <li>0 = Administration</li> <li>1 = Personnel</li> <li>2 = Costs and quotations</li> <li>3 = Project management</li> <li>4 = Quality, health and safety</li> <li>5 = Engineering</li> <li>6 = Costs and accounting</li> <li>7 = Correspondence</li> </ul>
FFgg	Folder levels	Up to two folder levels can be included (there will always be one folder level); these allow disciplines to be sub-divided into specific areas. FF and gg represent folders in the project directory structure following the Area folder
kk	Subfolder level	An additional subfolder level can be included (and will appear in the document numbering); however, the three digit document ID will not restart for this level of folder. I.e. doc ID numbering will be consecutive across subfolder levels.

NNN	Document ID	This number is assigned to ensure the document number is unique
Raa.bb	Revision	bb numbers indicate draft revisions. A formal submission will be at Raa.00.
	Document name	This identifies the document i.e. IO SCHEDULE. The document name is limited to 21 characters and common abbreviations should be used e.g. FS for functional specification etc.
.eeee	File extension	The proper extension for the file e.g. .xlsx for Excel spread sheets etc.

## Area and subfolder designations

AREA	FOLDER	DESCRIPTION
0-	01	Admin — Project registers
2-	01	(Original) Cost Sheets
	11	(Original) Quotation
	21	(Original) Third Party Costs
	31xx	Variation xx
3-	01	Project management — Projectect plans
	11	Project management — Projectect resources
	21	Project management — orders received and issued
	31	Project management — reports
	41	Project management — change control
	5101	Project management — deliverables list
	5111	Project management — pre-deliverables checklist
	5121	Project management — end of Projectect
	71	Project management — security and vetting
4-	01	QHSE — quality plan
	02	QHSE — quality validation plan
	11	QHSE — quality non-conformance
	12	QHSE — quality concession requests
	21	QHSE — quality audits
	31	QHSE — incident management
	41	QHSE — Risk assessment & method statements
5-	0101	Cross phase — traceability matrices
5-	11(01)	Requirements — user requirement specifications (second level optional)

## Area and subfolder designations

AREA	FOLDER	DESCRIPTION
5-	21(01)	Design general — functional specifications (second level optional)
5-	2201	Design hardware — hardware standards
	2211	Design hardware — Hardware design specifications
	2221	Design hardware — schedules
	2231	Design hardware — calculations
	2241	Design hardware — configurations
5-	2301	Design software — software standards
	2311	Design software — software/module design specifications
	2321	Design software — schedules
	2331	Design software — calculations
	2341	Design software — configurations
	2351	Design software — source code (no documents)
	2352	Design software — source code reviews
	2353	Design software — licences
5-	2401	Design drawings — drawing standards
	2411	Design drawings — P&IDs
	2412	Design drawings — general arrangements
	2413	Design drawings — mechanical
	2414	Design drawings — civil
	2421	Design drawings hardware — panels & plant
	2422	Design drawings hardware — networks
	2423	Design drawings hardware — pneumatics
	2431	Design drawings software — rack layouts
	2432	Design drawings software — flowcharts

## Area and subfolder designations

AREA	FOLDER	DESCRIPTION
5-	25	Design general — technical queries
5-	2601	Design general — design qualifications
	2611	Design general — design reviews
	2621	Design general — design review reports
5-	3101	Testing — test plan
	3111	Testing — module testing
	3121	Testing — integration testing
	3131	Testing — factory acceptance testing
5-	4101	Deployment — IQ/OQ/SAT rational
	4111	Deployment — defects lists
	4121	Deployment — installation qualification (IQ)
	4131	Deployment — operational qualification (OQ/SAT)
	4141	Deployment — process qualification (PQ)
	4151	Deployment — system release notes
5-	5101	Training & use — O&M manuals
	5111	Training & use — training matrices
	5112	Training & use — training manuals
	5121	Training & use — standard operating procedures (SOPs)
5-	71	Engineering — customer information
	72	Engineering — supplier information

AREA	FOLDER	DESCRIPTION
6-	01	Accountancy — invoices
	11	Accountancy — timesheets & expenses
	21	Accountancy — cost tracking
7-	01	Confidential — correspondence
	11	Confidential — agenda
	12	Confidential — minutes of meetings
	21	Confidential — Email archive
	51	Public — correspondence
	61	Public — agenda
	62	Public — minutes of meetings
